Security and Space Study
Implementation Status, 2021

In 2017, Bayfield County contracted for a consultant to evaluate office space and security needs of the county.

The final study recommended 16 Interior Safety and Security priorities INTERIOR Priorities and four EXTERIOR priorities. In addition exterior lighting and safety policy improvements were recommended. These are identified in the Security Best Practices Matrix Priorities and Recommendations document.

The County has implemented a wide variety of security measures in phases over the past three years. Improvements including electronic doors, exterior lighting, plexiglass/bullet proof windows and camera improvements are now in place. In 2020 lighting, camera and reception window improvements, court video conferencing security and remote attendance improvements were made and are underway.

Projects/Improvements planned in 2021:

- Jail Camera Upgrade, phase 2
- Door improvements
- Trainings on crisis intervention strategies and courthouse security.
