Leave all oak and conifer

TRACT 02-19 – HARVEST REQUIREMENTS

The following terms and conditions supplement those provided in the Bayfield County Timber Sale Contract.

A. PRESCRIPTION:

1. Harvest is a coppice prescription with an estimated average residual basal area of 23 ft².

B. HARVEST REQUIREMENTS:

1. Harvest all aspen, maple, and birch 2 inches in diameter and greater. Sever all ironwood.
2. Leave all oak, pine, spruce, and fir.

C. OPERATIONAL REQUIREMENTS AND SEASONAL RESTRICTIONS:

1. 6 grouse trees were marked throughout the sale area. These trees are marked with a red paint with a ring and X. Harvest these trees just above the red ring and lay the entire tree on the ground as close to the stump as possible. These trees will provide grouse with drumming log opportunities.
2. Small and large diameter oak exist throughout the sale. Logger must pay attention carefully when harvesting trees as to avoid harvesting the pole sized oak.
3. Sale boundaries and reserve islands are painted in red.
4. There are sled dog trails within this sale. Trails must be free of debris before the sale is completed.
5. Do not damage any survey monumentation.
6. If harvest will utilize the whole tree, 1 in 10 tops must be left scattered throughout the sale.
7. In 2018, oak wilt was officially confirmed in Bayfield County. Currently, this timber sale is located more than six miles away from the closest known infected tree. However, over the duration of this contract, additional infections could be discovered. If, over the duration of this contract, including extensions, oak wilt is officially confirmed within a six mile radius of this timber sale, as determined by the county, the following seasonal restriction will be applied: no harvesting operations will be allowed between April 15 (or as otherwise determined by the county) and July 15.

D. ACCESS AND ROADS:

1. This contract requires County authorization for all road/landing construction and places a number of other requirements on road construction and closure.
2. **Prior to beginning operations, the contractor must contact the Town of Bayview to discuss road conditions. The Town reserves the right to temporarily close roads to hauling if conditions warrant, as determined by the Town.**
3. To comply with Best Management Practices for Invasive Species: Prior to moving equipment onto or off the sale area, scrape or brush soil and debris from exterior surfaces to the extent practical.
