Harvest requirements:

- This timber sale is being sold on a ticket scale basis.
- This is a second thin red pine plantation with an average diameter of 9 inches and a jack pine clear-cut.
- Harvested pine cannot be kept on the Bayfield County Forest for more than three weeks from May 1st to August 31st.
- Harvest unit 1: Cut all orange marked Red Pine and all merchantable jack pine, aspen, and scrub oak utilizing to a 4-inch top diameter.
- Harvest unit 2: Cut all merchantable Jack Pine, Aspen and Scrub Oak utilizing to a 4-inch top diameter. Sever all stems 2-inch and larger.
- This sale is restricted to short-wood harvesting operations. Bayfield County may, at its discretion, allow pole skidding if the purchaser can demonstrate that it can be done without causing damage to the residual stand.
- To comply with the Best Management Practices for Invasive Species, prior to moving equipment on to or off the sale area, scrape or brush debris and soil from exterior surfaces to the greatest extent possible.
- The existing access roads within this timber sale are open to highway vehicle use. Upon completion of the timber sale these roads will be left open and in good condition, unless otherwise directed by the sale administrator.
- Leave all non-marked Red Pine and all White Pine undamaged.
- The timber sale boundaries are marked with Red Paint or natural type change.
- The property boundary is identified with Forest Service boundary markers adjacent to the access road. No equipment, felled trees, or decking allowed on the east side of the access road.
