>This sale is a fourth thinning. The red pine was pruned to 9 feet in 1976.

Special Restrictions:

>Harvested pine must be hauled within 3 weeks between May 1st and August 31st.

TRACT 39-21 – HARVEST REQUIREMENTS

The following terms and conditions supplement those provided in the Bayfield County Timber Sale Contract.

A. PRESCRIPTION:

1. Harvest unit has a thinning prescription with an estimated average residual basal area of 93 ft².

B. HARVEST REQUIREMENTS:

1. Harvest all orange marked trees.
2. Harvest all trees within 50 feet of the center of Jodi Road.

C. OPERATIONAL REQUIREMENTS AND SEASONAL RESTRICTIONS:

1. Sale boundaries consist of roads and abrupt timber type changes to jack pine, aspen and oak.
2. There is private property near the northwest portion of the stand (as shown on the map). No paint line exists. However, care must be taken to make sure no equipment or trees cross out of the stand to the north in that area.
3. If harvest will utilize the whole tree, 1 in 10 tops must be left scattered throughout the sale.
4. Harvested pine cannot be kept on the Bayfield County Forest for more than three weeks from May 1st to August 31st.

D. ACCESS AND ROADS:

1. This contract requires County authorization for all road/landing construction and places a number of other requirements on road construction and closure.
2. Decking of wood along town roads will not be allowed without permission from Bayfield County.

E. OTHER:

1. Utilization specification is to a 4" top. However, if the County determines that pulpwood markets continue to be very poor at the time of harvest the County will sign a contract amendment with the purchaser changing the utilization specification to a 5" top for selected species. When determining condition of the market, the County will pay particular attention to the amount of wood being purchased by the mills in Wisconsin Rapids and any other significant shifts in wood demand.
2. To comply with Best Management Practices for Invasive Species: Prior to moving equipment onto or off the sale area, scrape or brush soil and debris from exterior surfaces to the extent practical.
