

Re-Opening of the Bayfield County Senior Meal Sites

Happy days are here again! We are moving forward and have been working hard behind the scenes to serve meals and enjoy the company of others at congregate meal sites throughout Bayfield County.

We have a few details to share with everyone. First of all, COVID, and its variants, are still a concern in our area. Since we cannot guarantee zero risk of it being spread while dining at county meal sites, the following COVID-19 safety precautions are recommendations for participants, staff, and volunteers from Bayfield County Public Health and the Centers for Disease Control (CDC):

1. Consult with your health care provider to determine if senior dining participation is right for you
2. • Full COVID-19 vaccination is recommended before you attend senior dining (Please call the ADRC at 1-866-663-3607 if you need assistance or access to a vaccination clinic).
3. • Face coverings are **required** for participants, staff, and volunteers when not eating. The CDC continues to recommend everyone masks when indoors. Proper masking has been proven to reduce the spread of pathogens and we want everyone to be as healthy as possible.
4. • Proper cleaning and sanitizing will occur throughout the dining sites
5. Participants will be asked to be seated 6 feet between households or groups who regularly spend time with one another. Staff and volunteers at the sites will assist with seating.

Reservations: you will need to reserve a meal each time you want to attend a meal site. The number is 715-373-3396.

Space may be limited and if you are unable to attend on a specific date, you will have the first opportunity to attend on the next date. Please be patient. We may experience a few hiccups and confusion but with time, as the process is followed, a nice system will unfold.

***If you do not feel comfortable eating at a meal site, you will have an option to receive a Grab and Go meal while Federal COVID allowances are in place. Please confirm Grab and Go when you make your reservation.**

We do not want to spread any virus or bacteria to anyone else, whether it be COVID, the flu or just a nasty cold. If you do not feel well, maybe a cough, congestion or have lost your sense of smell or taste, please stay home. No one likes to be sick and as we age, we develop complications where a simple cold can linger and cause negative effects for a long time.

If you have questions or concerns with our procedures, please call Aging Services Coordinator, Carolyn Novak at 715-373-3353.

Thank you and WELCOME!!!!
