*Approx. 90% red maple, 8% sugar maple, 2% other
 **Approx. 95% red oak, 5% Other

Special Restrictions:
 Dry or frozen ground harvesting conditions required

TRACT 17-22 – HARVEST REQUIREMENTS

The following terms and conditions supplement those provided in the Bayfield County Timber Sale Contract.

A. PRESCRIPTION:

1. Harvest area is a clearcut prescription with an estimated average residual basal area of 5 ft².

B. HARVEST REQUIREMENTS:

1. Harvest area: Harvest all hardwood stems 2" in diameter and greater except leave all oak 8" dbh and less. Leave all conifers. Leave all trees painted with a red slash.

C. OPERATIONAL REQUIREMENTS AND SEASONAL RESTRICTIONS:

1. Sale boundaries consist of red paint line, young forest and blue line.
2. Blue paint line denotes private property. No trees or equipment may cross the blue paint line except on the access road.
3. Soils mostly consist of clay. The access road and most of the sale areas is on clay though so harvesting must be done with extreme care outside of frozen ground condition as determined by the sale administrator.
4. If harvest will utilize the whole tree, 1 in 10 tops must be left scattered throughout the sale.

D. ACCESS AND ROADS:

1. Access to the southern unit is off Peterson hill on a recently improved logging road. Access to the northern unit is off Peterson hill. No road exists into this small unit
2. No decking on the town road without permission from the Township and the sale administrator.

E. OTHER:

1. There are 3-5 grouse trees marked within the southern unit. These trees have a red line painted around them at approx. 5 ft from ground level with red Xs painted on either side below the red paint line. Harvest these trees above the red line and place on the ground adjacent to the 5' high stump. These trees will provide for future grouse drumming logs.
2. There are three reserve islands painted out in red in the southern unit.
3. To comply with Best Management Practices for Invasive Species: Prior to moving equipment onto or off the sale area, scrape or brush soil and debris from exterior surfaces to the extent practical.
4. Do not damage any survey monumentation.
