③ Customizing the Map

- Use the **Layer List** ▨ to turn specific layers on or off in the map. Expand the ***Bayfield County Base Map*** layer by clicking on the small arrow to view the sub-layers and check or un-check boxes to customize what layers appear. Additionally, click on the ••• symbol to view more options for that specific layer; set the visibility range, enable the pop-up, and more.

- Select **Basemap Gallery** ▦ to view aerial imagery options, which are labeled by year and range from 1906 plat book, hillshade, UAV collections, 1938, 1992, 1998, 2005, 2009, 2010, 2015, 2017, 2018, 2020. Imagery resolution and sources vary.

- Bring a dataset into the map with the **Add Data** ▤ option. This can be done by searching online or uploading a file.

- Click on **More** ▤ to view any icons/tools not shown. This button may appear if your screen size is smaller.

- Include sketches or drawings by using the Simple Draw ▨ tool and measurements with the Measurement ▨ tool.
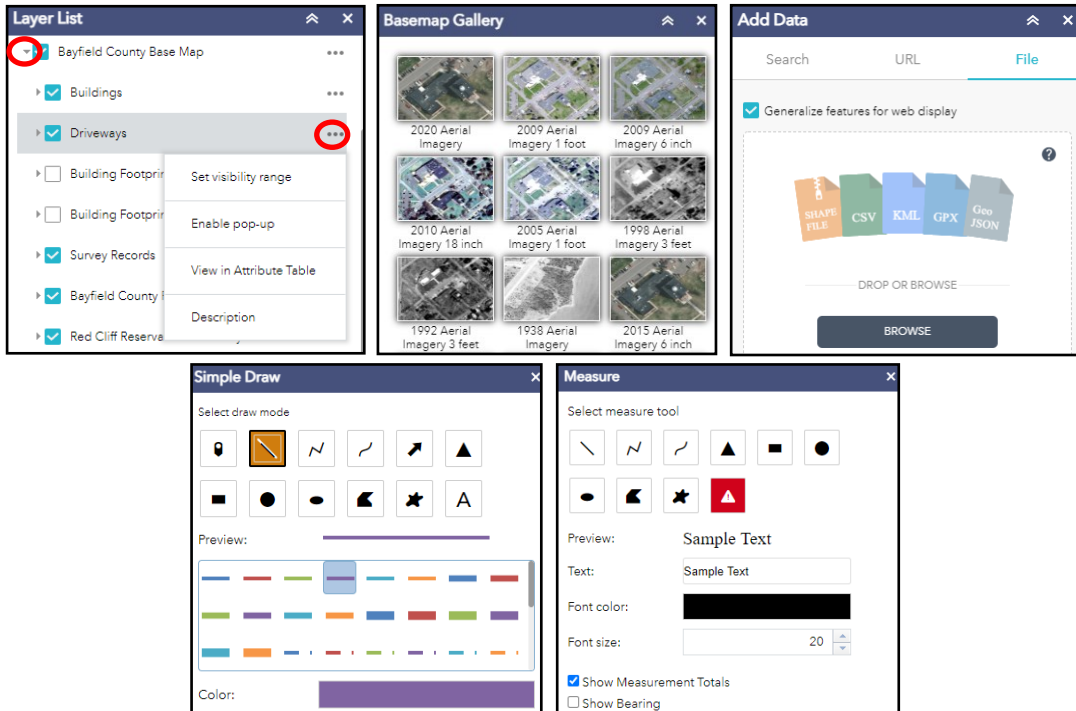

④ Generating the Final Map and Printing

- Select **Print** 🖨 then add a title and select the preferred layout and file format.

- Click on the ***Advanced*** button ⚙ Advanced for more customization options.

- Click on the ***Print*** button 🖨 Print to generate the map file. Once generated, click on the file to open in a new window where you can print or download as a PDF.
